

1kg ABE Fire Extinguisher

Product Images

Description

This extinguisher is most suitable for fires in the office, house, garage, boat, caravan or car.

- This Fire Extinguisher complies to standard AS/NZS 1841.
- Includes an in-build **Wall AND Vehicle Bracket**.

- Cylinders are internally treated against corrosion and externally painted using the highest quality polyester powder coat paint which **resists UV fading** and provides excellent corrosion resistance.
- Comes with a **Powder-coated steel handle**.
- Forged brass valve with pressure indicator/controllable discharge.
- Extinguisher comes with a discharge hose and nozzle assembly.
- Distinguished by a white coloured band around the top of the cylinder.
