

Drum Racking Bund

Product Images

Description

Prevent further damage to or contamination of nearby products when storing in tight spaces. These units are designed to suit standard racking while preserving space.

- Contains the legal minimum when storing 205L containers - at least 110% of one whole container.
- This racking bund protects items stored underneath by containing spills to a single pallet.
- Ideal for warehousing liquids, especially those out of direct sight where spills/leaks often occur undetected.
- Capable of storing containers from 5L up to 205L.
- Stored products such as oil, coolant, chemicals and more.
- Size: 1300mm x 1300mm x 280mm.

- Capacity: 220L.
- Weight: 25kg.
- **NOTE:** *Storage Drums and Pallet not included.*
