

Non-Flammable Non-Toxic Gas 2 Hazchem Sign

Product Images

Short Description

Non-Flammable Non-Toxic Gas 2 Sign

Description

Indicates the storage or containment of Class 2 Non-flammable, Non-toxic Gases within a facility, vehicle or container etc.

- Class 2, Division 2.2 non-flammable, non-toxic gases include gases that are asphyxiant, oxidising, or otherwise pure gas or gas mixes that are non-flammable and non-toxic.
- Examples: Nitrogen (compressed or liquified), Carbon Dioxide (compressed or liquified), and Oxygen (compressed or liquified).
- Read Chapter 2.2.2.1(b) of the Australian Dangerous Goods Code for more information (latest edition - 7.6) – [available here](#).
- Recognisable by a green background with black wording, gas cylinder symbol and the number '2'.
- Sign complies with ADG, WHS Regulations and Australian Standard AS1216-2006.
- Available in a large range of materials and sizes to suit any application.
- Hazchem signs are required at any workplace that stores or transport hazardous chemicals over a certain quantity.
- During an emergency situation, this sign will allow emergency services to identify any chemicals present.
- It is important as a business to correctly label all hazardous chemicals using the appropriate Hazchem Signage.

All Bronson Safety Hazchem signage meets the requirements of Australian Government Legislation.
