Short Description

Portable Drain Seal

Description

Constructed of solid, tacky polyurethane, Drain Seals deliver a tough, durable seal whenever and wherever you need drain protection.

- It is tacky (slightly sticky) on both sides, either side can be used to form a tight seal to block out spilled substances.
- The polyurethane is compatible for use with a wider range of chemicals and substances than rubbers or plastics.
- It is often more suitable for contact with certain solvents, oils and chemicals and it's environmentally safe.
- Portable, reversible & reusable many times over.
- Comes in a convenient carry bag.
