

Roller Load Shifting Skate 1000kg

Product Images

Description

High-quality Load Shifting Skates are the ideal solution when needing to move heavy objects within your factory, warehouse, or facility. The Heavy Duty design with large rollers and quality bearings makes load movement easier and ensures floors are protected from high load points.

Available in 3 load-bearing sizes. 1000kg, 2500kg and 6000kg.

- Load Capacity 1000kg
- Castors 2 castors 100(D) x 35(W)mm
- Dimensions 400(L) x 220(W) x 115(H)mm
- Platform Size 330(L) x 200(W)mm
- Net Weight 7kg

Mecanit is a leading European brand providing high-quality material handling solutions to the French, German and greater European markets. Bronson Safety is proud to be the exclusive agent for Mecanit in the Australian market.
