

Traffic Lane Separators

Product Images

Description

Bronson Safety Traffic Lane Separators are used to effectively separate vehicles from changing one lane into another or entering into a restricted area.

- Suitable for both permanent or temporary applications.

- Traffic Separators are the perfect lane divider to guide traffic on roadways, exit ramps, car parks, cycle lanes, warehouses and underground passageways.
 - Manufactured from heavy-duty rubber making them hard-wearing and ideal for all weather conditions.
 - Modular interlocking design allows you to create variable lengths to suit any application.
 - Tapered end caps ensure there are no hazards with exposed ends once the unit is installed.
 - High visibility reflective tape on Black and Yellow Modules including end caps.
 - **Bolts Not Included - We recommend the A4468 Sleeve Anchor Bolts for concrete and the A4918 Hilti Anchor Bolts for bitumen applications.**
-
- **Optional:** The **Flexible Black/Yellow Chevron Blade** is the ideal solution for directing traffic or the **Orange Flexible Post** can be added for increased visibility in low light and nighttime conditions.

Dimensions:

- Module: 1000(L) x 250(W) x 85(H)mm 15kg (2 Bolts)
- End Caps: 500(L) x 250(W) x 85(H)mm 7.5kg (Each) (2 Bolts per Pair)
